Interfaith Parish Support Services carries out the healing mission of the Catholic Church as an Alexian Brothers ministry by identifying and developing effective responses to the health needs of those we are called to serve.

Purposeful Play social skills groups are intended for children with Pervasive Developmental Disorders who experience difficulty in the areas of communication, interpersonal relationships, cooperation, and relational skills with others. Through the use of stories, music, puppets, role-play, arts and crafts, and games, children will learn skills to enhance their relationships and awareness of self in a safe and compassionate environment. Parents receive educational resources and support from our licensed therapists. Periodic parental participation, which is unique to our Purposeful Play groups, is essential for continuity of care from home, school, and social environments.
